# BLUESCAPE

## Bring people, data, and technology to the decisive point
### Bluescape is a FedRAMP® Moderate+ DISA IL-4 authorized solution

Built as a means of bringing situational awareness, planning, and analysis into workflows in real-time, Bluescape enables dispersed teams to work like they're in the same room--with the latest information. Problem-solving and decision-making are more difficult when teams and information aren't in one place. Help your customers bring their workstream content and data together securely.

## Is Bluescape right for your federal customers?

### AGILE WORKSTREAMS
**Next-level agility for dispersed teams**

- Get teams on the same page for mission alignment, sprints, or proposal developments
- Customizable workflows, tasks, processes, and online whiteboarding for the efficiency of being in the same room without the added cost
- Bluescape provides a common operating picture that can be accessed anytime, anywhere

### SITUATIONAL AWARENESS
**Monitoring and responding in real-time**

- 360-degree visibility allows customers to see the big picture or dive deep into the details, powering faster, smarter decision-making
- Mission-critical information sharing
- Real-time and asynchronous collaboration for customers with 24/7/365 global missions

### DATA ON DEMAND
**Information and tools at the ready**

- View and analyze information, including CUI, in a visual, interactive environment
- Bring data right to the place where it will have the most impact
- Add Bluescape to other tools of choice to analyze, integrate, or create

### DEFENSE-GRADE SECURITY
**Built for the unique needs of national security missions**

- FedRAMP Moderate + DISA IL-4 authorized and air-gapped environments
- Fully compliant with NIST CSF, NIST 800-171, FIPS 140-2, GDPR, and ISO27001
- Full Top Secret authority to operate
- Deploy in a public or private cloud or on-premises

### BLUESCAPE IS MAKING WAVES

USAF AFWERX award winner  |  Named to *Fast Company's* Next Big Thing in Tech list

U.S. DEPT OF DEFENSE · U.S. AIR FORCE · AMERICA'S NAVY · aws partner network · bcore · FEDDATA · GDIT · Ministry of Defence · ManTech. Securing the Future · Peraton · SAIC · Telos

### LEARN MORE ABOUT BECOMING A BLUESCAPE PARTNER

www.bluescape.com/partners          public.sector.partnerships@bluescape.com          703.220.2418

The Bluescape platform can be presented to any team needing a modern collaboration solution, including federal agencies, contractors, commercial entities, creative and engineering teams, and nonprofits.

## We support our partners and resellers with:

- Bluescape licenses for internal use and training
- Co-branded marketing assets and joint marketing opportunities
- Sales support from subject matter experts
- Technical support for sales and delivery
- Discounts and deal registration

Bluescape partnership options work with your business strategy and structure to address your customers' needs and provide frictionless integration with other platforms, solutions, and tools.

### Partners and Resellers

Add Bluescape to your customers' toolbox. This program allows you to define where, when, and how we meet customers' needs together.

### Hardware and Software OEMs

Bluescape's API-driven construct and versatility with air-gapped and SaaS environments are ideal for your product needs. Our technical team provides support to make build-ins seamless and painless.
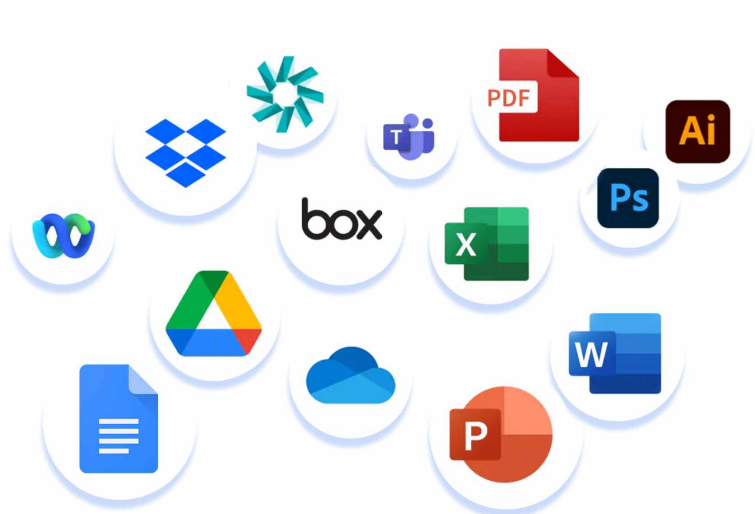

### System Integrators and Service Providers

Bluescape is built to fit simply and easily into your custom-crafted solutions. Our teaming experience helps you address even the most sophisticated customer needs and fully supports your integration of Bluescape into an existing process or tech stack.

### BLUESCAPE INTEGRATION + CRITICAL TOOLS

**Streamline workflows and incorporate data repositories with our flexible and extensible API.**

The Bluescape API enables integrations with third-party software, allowing you to offer integrated packages and customer-preferred tools
