Introducing Bluescape

Visualize mission success through secure online workspaces. With Bluescape, extend the experience of interacting in the same room while seamlessly connecting in-person teams with dispersed personnel to optimize remote brainstorming and planning sessions.

Bluescape is a FedRAMP Moderate+ online whiteboard solution designed to support information sharing, data analysis, and visual planning. Improve brainstorming, planning, and decision-making with our visual workspaces that provide an agile and secure environment to keep geographically distributed teams on the same page.

MISSION-READY SECURITY

- NAVSEA ATO at IL4/IL5 for CUI

- DISA IL4 P-ATO and Support for ITAR

- DoD IL5 ATO in AWS GovCloud

- Top-secret, Level B certification, JWICS

- Complies with NIST CSF, NIST 800-171, FIPS 140-2, and ISO 27001

- FedRAMP Moderate+ IL4 Controls, sponsored by US Air Force

WHY BLUESCAPE?

With our agile online whiteboard, we help you sprint toward mission outcomes by streamlining complex processes while eliminating miscommunications, missed deadlines, and wasted time. Bluescape unifies teams and your workstreams of information to create a common operating picture. As a result, agencies benefit from improving their ability to process complex information and make better decisions.

- **Unify Dispersed Teams**
  Our secure and cost-effective structure provides a flexible and scalable alternative to physical workspaces.

- **Increase Engagement with Mission Partners**
  Improve operational sharing and planning across the entire government ecosystem, from government to industry to academia.

- **Enable Fast-Paced, Decentralized Operations**
  Centralize content and communications to build trust, common understanding, and alignment across distributed teams.

- **Improve Program Management, Organization, and Monitoring**
  Provide a shared operational context to streamline communications and coordination efforts across a diversity of missions, from routine projects to complex programs.

FLEXIBLE DEPLOYMENTS

Bluescape has an IL5 Authority To Operate (ATO) issued by the Department of Defense within the Naval Systems Engineering Resource Center (NSERC) and is also deployed in GovCloud for CUI/ITAR content. Flexible deployment options include public and private cloud. Physical installations on-premises and in air-gapped environments are also available.

BLUESCAPE FEATURES

Boost agency efficiency and productivity—even in remote settings—by tapping into all the features Bluescape offers, and increase team engagement, alignment, and trust with agility.

WORKSPACES

Be on the same page, even if you're not in the same room. Bring all your content and data together in a workspace and create a single source of truth.

WHITEBOARDING

Capture ideas, visualize concepts, and focus attention with drawing and diagramming tools. Use virtual sticky notes to organize ideas and actions.

CONTENT SHARING

The Defense and National Security communities trust Bluescape to protect their most sensitive information and empower agency users to securely upload content or add links from approved cloud file-sharing services.

VISUAL ORGANIZATION

Group content into containers to structure your workspace and simplify presenting, browsing, and navigating work.

ANNOTATION

Capture feedback and illustrate ideas and processes by drawing on the workspace or directly on the content. Comment and @mention agency users to alert them about tasks or new information.

COMMUNICATIONS

Simplify communicating with easy scheduling and start video meetings in Bluescape using Teams, Webex, Zoom, or other unified communications tools.

DEPLOYMENT OPTIONS

Whether you're looking to distribute via the cloud or on-premises, we offer multiple options to roll out our solution with the flexibility and security agencies require.

API

The Bluescape API enables integrations with third-party software to streamline workflows, and visualize and analyze data in one place.

ABOUT BLUESCAPE

Bluescape customers include Fortune 100 companies, government agencies, higher education, and media and entertainment. A Silicon Valley-based company, Bluescape was named to Fast Company's 2022 list of *Next Big Things in Tech* and 2021 list of *Most Innovative Companies*.
